### Benefits of the Aulterra Neutralizer™

In a June 2006 study by Dr. Rein, cell phone radiation was measured without the **Aulterra Neutralizer™** and with the **Neutralizer™**. The main peak in radiation was reduced by half with the use of the **Neutralizer™** while smaller peaks caused by transmissions over the open line were eliminated.

Without Neutralizer

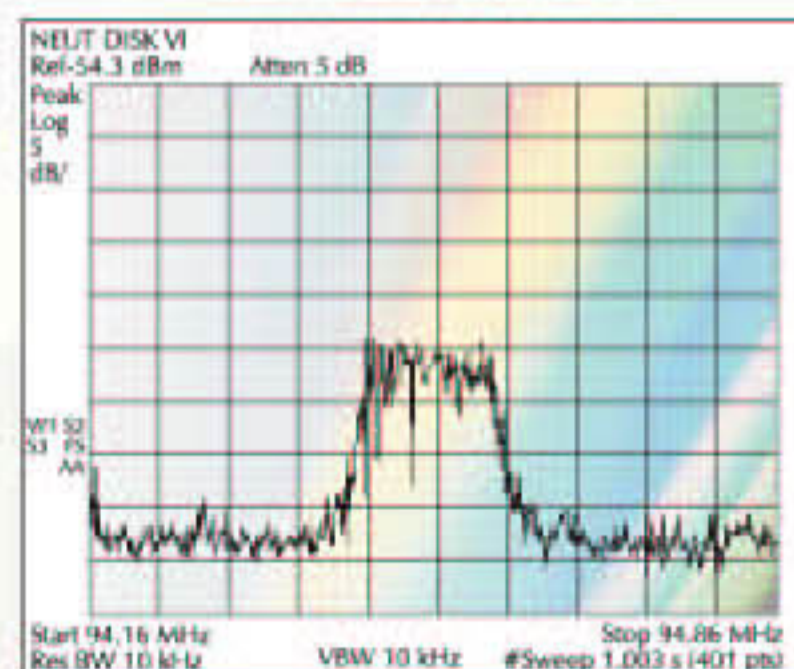

### The Aulterra Neutralizer™ Works on Other EMF Radiating Devices Too!

Use the **Aulterra Neutralizer** on the following electronic devices for added protection:

- Computer terminal
- Microwave
- Cordless telephone
- Television
- Video Game Equipment

### Studies Prove Cell Phone Radiation Causes Damage to DNA

The latest studies confirm what the cellular phone manufacturers do not want you to know:

- Casual use of a cell phone can damage the DNA in sensitive areas of your brain.
- Levels at which damage occurs can be as low as .024-.0024 W/kg – much lower than any cell phone!<sup>1</sup>
- Using an ear-piece will not keep you safe from EMF exposure. Ear pieces act as conduits to funnel as much as three times the harmful radiation to your brain.<sup>2</sup>
- DNA damage from EMF exposure is cumulative, increasing your risk each time you use your phone.<sup>3</sup>

A landmark study by Dr. Henry Lai of the University of Washington showed that even at low levels, exposure to EMF/RF caused DNA damage to brain cells of rats, resulting in loss of short and long-term memory and slower learning.<sup>4</sup>

A study at Penn State University concluded that EMF exposure produced no effect for the "first few minutes... then a cascade of microbial destruction occurs."<sup>5</sup>

The **Aulterra Neutralizer™** is the only product on the market with invitro studies that prove human DNA can be protected from the damaging effects of EMF/RF.

*"It turns out that a call lasting just two minutes can open the "blood-brain barrier" in kids as well as adults, allowing toxins in the bloodstream to cross this blood vessel gateway into the skull and attack brain cells. The same two-minute cell phone exposure also disrupts the natural electrical activity of a child's brain for up to an hour afterwards."* Thomas, William, "Cell Phones Hurt Children Even Worse Than Adults," Convergence Weekly, July 2003.

**The Aulterra Neutralizer™ is the Only Product that NEUTRALIZES Harmful Effects of EMF/RF Exposure!**

- Man-made electromagnetic and radio frequencies (EMFs/RFs) produce chaotic energy of a different frequency than natural EMFs.
- Man-made EMFs can disrupt or distort organic energy patterns.
- Artificial EMFs may be hazardous, may distort human energy patterns, may cause cancer or present other grave dangers to human health.

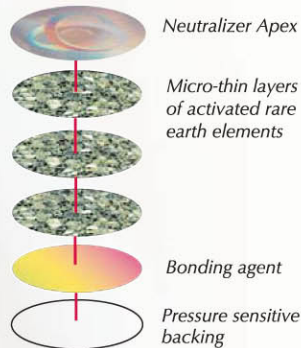

The **Aulterra Neutralizer** is a proprietary blend of activated paramagnetic and diamagnetic elements which neutralize the effect of man-made EMF exposure on human DNA.

Noted DNA researcher Dr. Glen Rein of Quantum Biological Lab, recently completed a study in which he concluded: "... the natural coherent energy emanating from the **Aulterra Neutralizer** mitigated the incoherent energy from the man-made EMF, rendering it harmless to human DNA."

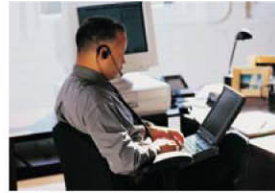

**The Aulterra Neutralizer™ Will Not Interfere with the Functioning of Your Cell Phone.**

Unlike other EMF blocking devices, the **Aulterra Neutralizer™** will not affect cellular phone reception or transmission. Your phone will still transmit properly – but it will no longer be hazardous to your DNA and your health.

Three micro-thin layers of rare activated earth elements produce our thinnest, most effective Neutralizer ever.

**The Aulterra Neutralizer™ Will Work on Any Cellular Phone.**

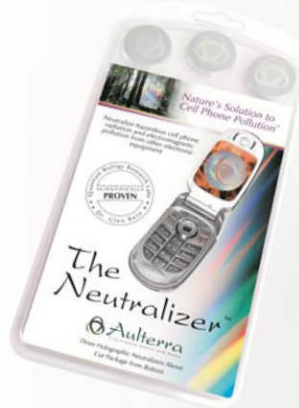

The **Aulterra Neutralizer™** is effective against harmful EMF/RF radiation with any style of cellular phone:

- Any antenna style
- Any brand or model
- Digital, analog or dual mode phones
- New models as well as older styles

**The Aulterra Neutralizer™ is Convenient and Easy to Use.**

There is no complicated installation procedure with the **Aulterra Neutralizer™**. Just peel the backing from the disc, and apply it to any flat, smooth surface on your cellular phone or other electronic device. The adhesive will stick to almost any surface, providing constant protection for as long as it remains on the device.
